

How we prepared for the annual awarding ceremony

When the organization said, no god parents visit Sri Lanka for the ceremony, we decided 27th December as the ceremony date. Because the new term of the schools in 2026 will start on 5th January. Before that we have to distribute school materials.

Before 2 months from the December, we received quotation for school fabrics and other materials like books, pens, school bags...etc. From the quotations we decided, form where we should buy our stuff. We counted the amount we need for all students. It means we counted how many books, pencils, erasers, pens and other things we need for distribution.

From the beginning of November, we bought school materials. During the last days of October, we decided the dancing items. Our students helped us to select songs and they started their practices. The whole month of November was school vacation, so the students came to center for their practices. Every day we observe their performances and we guide them. Procurement process takes place during daily training session.

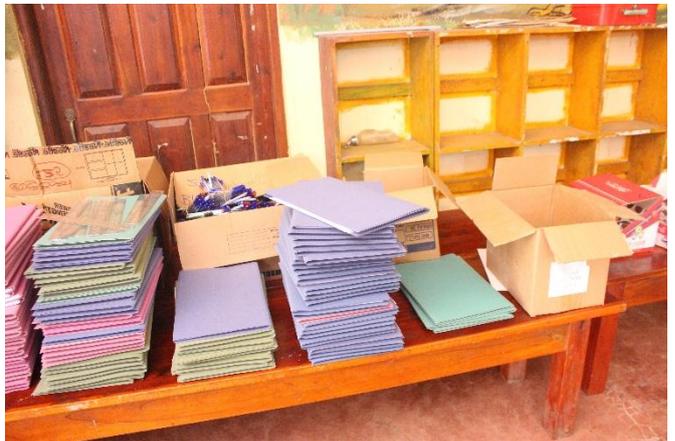

Accordingly, all purchases were completed in mid-December. 16th December we cut the school fabrics in to pieces as needed for students. Few mothers came to helped by cutting the fabrics. In the midst of all this I and Miss. Kanthi decorated the pictures of famous Sri Lankan god (Ganapathi) and goddess (Saraswathi) by colourful beds for stage decoration.

As the festival approaches some fathers and mothers came to the center to help. They cleaned everywhere in the temple. Before three days for the ceremony, a few friends who help us at every opportunity came with our notice to preparing school materials for next year (2026). According to our list they prepared it very carefully. As usual I made a tag for bag to identify the bags for boys and girls according the uniform fabrics.

Day before the ceremony we collected all the decorating materials, food items for lunch and other all the things we appointed 348 -Tharushi and 298 - Sudeera as presenters. So, they came to center to help us and decorate the stage. After making sure everything was properly prepared, we headed home in the night.
