

13th Food Aid Program

Last 07th of February we distributed dry food for 13th time. We are very grateful to all the foster parents who have committed to providing this support to our children on thirteen occasions.

As planned, we began the program at 9.00 o' clock on the Saturday morning. We have informed all our students. After the venerable Thero performed the penance, he delivered a short speech. In that speech, he expressed the value of the help provided to the students so far and reminded students they should study well as a courtesy.

Then we started the distribution. One parcel contained with the following items.

All the students and parents highly appreciated the program. Some parents gave their heartfelt thank privately with us. As the local partner in Sri Lanka, we also highly appreciated the effort of organization and god parents in Deutschland. Thank you for thinking much more about our children.
