

A heartwarming visit from our Esteemed God Parents.

Recently, we had the distinct pleasure of welcoming the foster parents of the children enrolled in our scholarship programme. It was a day filled with a joy, connection and shared smiles, further strengthening the bond between our god parents and their god children.

The guests arrived at about 10.00 AM, and were greeted with great affection. Their god children 574 – Sithika and 584 – Sachini took the lead in welcoming them making the god parents feel at home the very moment they arrived. Following the initial greetings everyone enjoyed refreshing tea service and engaged in friendly conversations.

In a beautiful gesture of kindness, the foster parents presented special gifts they had brought for the children. The excitement and gratitude on the children's faces as they received these tokens of love were truly the highlight of morning.

To provide the sponsors with a better understanding of the children's daily lives and environment, a short tour was organized. They visited the temple to appreciate its serene surroundings and history, followed by a visit to the classrooms to see the children's educational activities in progress.

The afternoon took an emotional and touching turn during lunch time. The mothers of our students had prepared a delicious meal with great care. In a wonderful display of humility and affection, the god parents themselves served the food to the children.

After a day well spent creating beautiful memories the god parent concluded their visit. At about 2.00 PM, they departed with happy hearts, leaving behind a lasting positive impact on the children and the community.
